The fiscal year report presents statistics on convicted adult felons confined in the Institutional Division of the Texas Department of Criminal Justice from September of 1990 through August of 1991. The report is a record of inmate demographics, an archive document for research, and a source for public information.

The Summary section presents historical trends, demographic highlights, and a series of charts.

The On-Hand section provides data on 49,608 inmates present on the last day of the fiscal year.

The Receives section focuses on the combined number of inmates in three receive groups - New Receives, Parole Violators, and Mandatory Supervision Violators. Receives exclude 750 Shock Probation Violators because of their large percentage of unavailable computer data. The total number of receives this fiscal year was 39,646. Statistics are shown for 38,896 receives.

The Releases section addresses the combined number of inmates in three release groups - Parole, Mandatory Supervision, and Shock Probation. Discharge releases were excluded because of their small number: 190 inmates. Releases totaled 37,735 inmates; statistics are shown on 37,545.

The New Receives section presents the 23,517 inmates received with new convictions.

The Parole Violators section targets 13,667 inmates received for violating parole conditions.

The Mandatory Supervision Violators section provides data on 1,712 inmates received for violating mandatory supervision release conditions.

The Parole section presents the 33,633 inmates released to the supervision of the Pardons and Paroles Division (PPD). Eligibility generally requires prison time plus good conduct time to equal either one-third or one-fourth of the sentence, depending on the nature of the offense.

The Mandatory Supervision section focuses on the 2,213 inmates released to PPD supervision. Eligibility generally requires prison time plus good time to equal the total sentence.

The Shock Probation section presents statistics on 1,699 inmates released to Community Justice Assistance Division supervision during the fiscal year. The prison records of eligible candidates who have served six months are reviewed by the court to see if probation is appropriate.

Descriptive data are shown for male, female, and total inmates by 17 variables: number of inmates by month; principal racial groups; age groups; place of conviction in Metropolitan Statistical Area (MSA); offense of longest sentence; aggravated and non-aggravated offenses; IQ and education test scores; self-reported school grade completed outside prison; prior number of confinements in prison (Texas and other); prior probations; good conduct time categories; security custody levels; sentence length; unit assignment (On-Hand); and average time served (Releases).

The total number of inmates On-Hand the last day of the fiscal year increased by one percent from last year. Receives decreased by 14% and Releases decreased by one percent.

New Receives comprised 59% of all inmates received this fiscal year. Parole Violators represented 35%; Mandatory Supervision Violators accounted for four percent of all receives; and Shock Probation Violators represented two percent of all receives for the year.

Discharge releases represented less than one percent of the total number of releases. Parole accounted for 89%, Mandatory Supervision was six percent, and Shock Probation was less than five percent of all inmates released. The average time served by released inmates was 1.7 years; average sentence length for releases was 9.8 years. Releases served an average of 17% of the sentence. Parole releases served 1.6 years on an average sentence of 10 years (16%). Releases to Mandatory Supervision served 3.3 years on 7.9 years or 42% of the sentence.

This year, female inmates represented between four and five percent of the On-Hand population. Receives and Releases were each eight percent female. The average age of On-Hand inmates was 32 years. For Receives, the average age was 30 years, and for Releases, 30 years.

Inmates with convictions for Violent Offenses accounted for 48% of the On-Hand population, 22% of Receives and 18% of Releases. Property Offenses were represented by 29% of On-Hand, 45% of Receives, and 46% of Releases. Drug Offenders were distributed by 18% On-Hand, 26% Receives, and 29% Releases.

Prior Texas prison confinement was represented by 51% of the On-Hand, 20% of the Receives, and 40% of the Releases this year. Inmates On-Hand received an average sentence of 24.8 years.

Of On-Hand inmates, 64% had at least one prior probation, 56% of all Receives fell in that category, and 76% of this year's Releases had prior probations.

Aggravated Offenders (inmates with convictions where the court found that weapons were used or violence occurred during the crime) accounted for 32% of On-Hand inmates, nine percent of Receives, and six percent of Releases this fiscal year.

Eighty-two percent of On-Hand inmates were trusties and 70% were in Minimum Custody. Six percent were classified in Administrative Segregation, six percent in Close Custody, and five percent of the On-Hand inmates were in Medium Custody.

The average educational achievement test level for On-Hand inmates was between the sixth and seventh grades; the self-reported level of academic achievement was at the tenth grade level. The average IQ score for the On-Hand population was 91.

Less than three percent of On-Hand inmates claimed college attendance; 21% claimed to have dropped out of school before reaching the ninth grade. Only 15% claimed to have completed high school and 12% claimed a GED or high school equivalent diploma.

The total number of inmates received this year represented a rate of 229 inmates for every 100,000 Texans. The 28 MSA's presented a prison receive rate of 239 inmates per 100,000.

The Crime Index rate for the top five Texas MSA's was 9,424 per 100,000; the prison receive rate was 259 per 100,000. In the top five MSA's, San Antonio had the highest Crime Index rate (10,480) and the second lowest prison receive rate (219); Dallas had the second highest crime rate (10,243) and the highest receive rate (288); and Houston had the lowest crime rate (8,496) and the second highest receive rate (270). Of the top five, the Austin MSA ranked fourth in crime and fifth in prison admission rate. Fort Worth-Arlington ranked third in both crime and receive rates.

SUMMARY
